

Life without the wolf

the future of threatened & endangered species

Join researchers from the University of St Andrews on 2nd February 2019 for an afternoon of talks exploring the latest research into endangered and threatened species, followed by a final presentation from renowned BBC wildlife cameraman Doug Allan.

In addition to talks, a variety of hands-on outreach activities suitable for all ages will take place during the afternoon.

The activities will culminate at 7.00pm with a performance of Prokofiev's much-loved work for children *Peter and the Wolf* given in celebration of the Heisenberg Ensemble's 30th anniversary.

The work will be paired with the wonderful 1st horn concerto by Richard Strauss and Rael's *Mother Goose*.

The afternoon of talks and activities is free of charge.

Tickets for the evening concert performance are available from the Byre Theatre box office (£10 for adults, £5 children/students).
